

Dental Care

Bankers Health Advantage members will save on almost all dental care expenses through the largest, independent network of dental providers nationwide. Simply present your Bankers Health Advantage card at any one of the participating providers (including specialists where available) to receive discounted rates on dental procedures.

The discount program is designed to save money not only on routine and preventive care, but also on more extensive treatments such as fillings, crowns, root canals, dentures, bridges, oral surgery and more! Even orthodontics and cosmetic dentistry services are discounted. Save 10 to 50% on almost all your dental care expenses.

Examples of discounts:

Procedure	National Average*	You Pay	You Save**
Initial Exam	\$59	\$44	\$15
Adult Cleaning	\$63	\$47	\$16
Complete Intra-oral X-rays	\$91	\$61	\$30

**National averages based on "National Dentistry Advisory Service Pricing Program 2000." Actual savings will vary. For more information on specialists and/or additional general dentist locations, please call Bankers Health Advantage Administrator for Member Services, toll-free. The number is printed on your membership card.*

***Savings will vary regionally*

When visiting a participating dental office, members must present their Bankers Health Advantage membership cards prior to treatment to be assured that the proper discounts will be applied. Provider lists and fees may change at any time.

Save at least 15% on:

- Orthodontics (braces)
- Oral surgery
- Crowns
- Cosmetic dentistry
- Periodontics
- Fillings
- Extractions
- Dentures
- Most other services

Note: The discount card may be used to supplement a traditional dental indemnity plan that does not require you to see a specific dentist. The card cannot be used with any other discount plan, or other managed care plan.

Bankers Health Advantage is a health care discount and information program, not insurance or a pre-paid services plan.
